FLYING OVER
DESERT WASTE

Intrepid British Woman
Flier on Long Jaunt to
South Africa

ORAN, Algeria, Nov. 15.—No word had been received here yesterday from Amy Johnson, British aviator attempting to better the record of her compatriot, Captain A. G. Mollison, on a flight by stages from England to South Africa. The wireless was silent for most of the night, a few hours after completing a hop from Lympne, Eng.

ORAN, Algeria, Nov. 15.—Amy Johnson, who is trying to better the record of Captain A. G. Mollison, from England to South Africa, took off at 11:20 p.m. last night from Lympne, England, about 1,800 miles across the Sahara desert.

Six hours out Monday from Lympne, England, arriving here last evening, Mollison made the flight in four days, 17 hours and 18 minutes.

**FASCISM IN

IL DUCE SAYS**

Dictator Reviews History
of Organization on 10th
Anniversary

By BENITO MUSSOLINI,
Leader of Italy

Special Cable to Edmonton Journal

ROME, Nov. 14.—"The atmosphere of the tenth anniversary of Fascism is one of health, youthful, and charged with electricity."

"There are so little in history, but they are not so little in the steps of a revolutionary movement, that in ten years of revolution years count double, for example, if a year's campaign do for us what a year's war does; years count triple, or even ten times, because events follow so closely on each other."

Despite this, it is obviously a singular fact that this revolution did not destroy the country. In the tenth anniversary of Fascism in Rome I had at my side the same men who had been leaders of the movement, and the men who are with me, who are the hierarchy of the government and the regime today, are the same men

St. Lawrence Waterway Plan Ratification Hits Snag In U.S. Senate

WITNESSES AT HEARING FLING BITTER WORDS

"Ridiculous" Says President N.Y. Association—Reils Oppose

By NATHAN ROBERTSON
Associated Press Staff Writer

WASHINGTON, Nov. 15.—Ratification of the St. Lawrence waterway treaty with Canada was opposed before a Senate foreign relations sub-committee today by representatives of railroads and New York City business men who said the project was economically unsound.

They appeared as witnesses at the hearing, which was adjourned on the treaty calling for joint participation by the United States and Canada in the construction of a canal projected on the St. Lawrence, estimated officially to cost more than \$200,000,000, and to be completed last July after years of negotiation.

THREE LEAD ATTACK

Using similar weapons three opposition senators expected the attack on the treaty.

They were Alfred P. Tamm, senator from Minnesota; chairman of Railways Executives; E. P. Goodrich, consulting engineer representing the American Dredge Company, and Peter G. Ten Fock, president of the New York State Waterways.

All contended the cost of the project, originally estimated at \$100 million, would be far more than estimated, that it would not be financially savings proponents claimed and that it would prove an uneconomical proposition to individual business and States taxpayers.

The capital cost to this country was to be \$100 million. That at \$400,000,000 instead of the \$270,453,000 estimated by the joint board of engineers.

Goodrich estimated the cost of the project, if built, would be \$1,000,000,000.

"The farms will get virtually nothing out of the project," Mr. Goodrich said.

"That will be in accordance with the situation," Chairman Borah, Republican from Idaho, replied as he adjourned the hearing.

Ten Eyck's estimate of the cost was \$1,360,000,000. He said it would be necessary for the United States to spend so much to help construct a route "as a rial to an existing one which is wholly within the United States."

Progress Is Made Organizing First Aid In City

Construction progress has been made in the city's first task force, organizing first aid in the city, according to information received from the Alberta Education Centre of the St. John Ambulance Association.

On Wednesday, November 15, special lectures on first aid for mothers and fathers were held at the headquarters at 7:45 p.m. on Thursday.

On Thursday evening a course of lectures on first aid in industry will open in the North Side library lecture room, and the course is open to men only.

Enrolment in the course may be secured from the Red Cross and Canadian Book Exchange, 969 Jasper East, or to the Red Cross, 1025 10th Street.

Seniors class in first aid and home nursing are in progress at the University of Alberta, and at the Edmonton Technical school. The Edmonton Nursing Division has commenced its course in Home Hygiene and Sanitation. These are being given by Dr. W. C. Whitehead.

The Alberta Motor Association urges motorists to take advantage of the free first aid hearing the addresses on first aid for motorists.

MORE ABOUT JUDGE STUBBS

CONTINUED FROM PAGE FOUR

him the law gives a remedy. I do not know whether any redress is available to a judge for malicious prosecution. I am a member of the Bar and Minister of Justice. I do know that there ought to be some reasonable explanation of the "persecution and prosecution" charge.

"Yes, I received the letter," the Minister of Justice said, "but I will not say anything about it."

The Justice Minister, at the request of the Manitoba Attorney-General, has directed his office to investigate statements and comments made from the bench by the Winnipeg Judge.

10-Year-Old Boy On Missing List

Roy Spink, aged 10, object of a 24 hour search by city and mounted police, was still missing yesterday at 10 a.m. Tuesday, according to Police Chief A. G. McLean. He had been sent to search a gravel pit on the Calgary trail south of the city. The missing boy was last seen about 10 a.m. riding a small pony. He was reported seen going south on the Calgary trail Monday afternoon.

His parents were going to leave yesterday morning for a vacation just beyond the city limits today for a trip to the old country. It is believed the boy could not stay away rather than take this trip.

The missing youngster has fair hair and blue eyes. He is wearing a dark brown sweater, blue overalls and a red touque when last

Reno Divorced--From Funds

Wealthy divorce-seekers bidding their time luxuriously in Reno hotels while divorce suits are pending out there, may be well advised to fly their money in the 10-day bank holiday declared throughout the state of Nevada by Lieut.-Gov. Morley Griswold. Alice Joyce (left), the actress and Ruth Elder (right), aviatrix, are two charming members of the divorce colony in which no one seems to have opened up as a heiress yet. In Washington, Governor Fred B. Balzar (left centre, above) sought President Hoover's aid in obtaining a \$2,000,000 loan from the Reconstruc-

tion Finance Corporation to tide over the state's banks, he said, because of low livestock prices. Strangely enough, a reorganization of the 12 banking corporations belonging to the George Wingfield interests was under way. Wingfield (right, centre, above), who dominates Nevada banking and is said to have spent \$15,000,000 of his own fortune trying to save his banks, is the founder of Reno's most stylish Riverfront hotel (centre, below), redeemer of millionaire divorce couples, and home of one of the closed Wingfield banks.

NO PLANS FOR MASS FEEDING ON BIG SCALE

Large Expenditure Involved Given by Mayor Knott as Reason

It is not planned to undertake a system of mass feeding on a large scale, the city manager announced here, it was learned from Mayor D. K. Knott Tuesday, following a conference between city commissioners and the Alberta Relief Commission.

It was agreed, however, that if such a system were adopted

it would be given by the mayor as the reason.

At the time being, the Dominion and provincial governments have the responsibility for the feeding and housing of the single, unemployed men, the relief department's administration staff for the issuance of relief

FEED 200 SINGLE MEN

Mass feeding on a small scale will be undertaken, however. It is proposed to feed 200 single men at the old Immigration Hall and another 200 at the old Hotel Alberta. The men will be given the potbelly will be issued meal and bed tickets which will be redeemed at the various restaurants and boarding houses in the city.

"We are not considering a plan for feeding 2,000 men, as we have employed due to the large expenditure which such a step would entail," the mayor said.

Those attending the relief conference included: David Mitchell, A. M. McKenzie, chairman of the Alberta Relief Commission; Dr. H. R. McGregor, advisor to the provincial government on relief feeding, E. Shipton, manager of the relief audit department, and H. F. McKee, manager of the special relief department for the city.

New Twist Is Made Taking Humans Apart

CONVICT GIVES PRISON GUARD SLIP IN CITY

SAN FRANCISCO, Nov. 15.—Pounding out part of the contents of the skull and replacing it with air is a new twist in taking humans apart, and putting them together again.

Doctors can drain off a portion of the liquid in which your brain floats, they can stop it, and they call it—and take a look at the workings of your brain.

The operation is called trepanning.

They reveal brain disease otherwise undetectable. The elaborate procedure has been advanced by two doctors of the University of California medical school—Dr. Robert S. Stone of the department of neurosurgery and Dr. George R. Tomlinson, of the department of neuro-surgery to a point where a clear picture of the brain can be obtained.

Substitution of air for the cerebrospinal fluid, Dr. Stone explained, makes clear x-ray photographs possible.

FRENCH PEACE PLAN COMPLEX

RUNS NORTH ON 101 STREET

The two bad just emerged from a 101 street side after an early morning raid on the city jail.

Left behind by the mystery man,

Tomlinson cut out the city jail door and the man and the man got out under way.

Romanus was given a 10-year sentence. Magistrate Col. George R. McLeod said he was glad the man was tremulously complex.

He was serving a 10-year confinement

with all powers represented

and considered an essential

part of the great task of disarming

undertaking. When

Bang van Neurh, the German

convict, was released for

the League of Nations council meet-

ing, he was told he must make

representatives of the other great

nations an agreement on the state of German entity.

\$12,200 Conscience Money Refunded

OTTAWA, Nov. 15.—The largest single amount of money ever received by the department of national revenue was handed to the department today in the form of a cheque for \$12,200. A lady and a gentleman, both of whom were officers, and the wife of one, were returned to Montreal, and that sum included the duty, with compound interest on articles brought into Canada, plus the amount of taxes paid after date the charges are raised.

Renamed Hockey Coach At Queen's

TORONTO, Nov. 15.—With

Montreal half a day ahead of the chain of Great Lakes showing

tricity activity today as vessels rushed

their cargoes of grain from the head of the lakes to lower Canadian ports before the start of the storm season.

Judging from present indications, navigation will close two weeks earlier than usual this year, and a delay in the opening of the winter storage cargo and preparing for "dug up" for the winter.

However, not until the end of this first jump upward. Livities are increased about 12 per cent on Nov. 15, and again about 12 per cent after that date the charges are raised.

R. F. "Dick" Corless, Cariboo Prospector, Has Group of 16 Claims

How would you like to dig gold out of your own basement?

Mr. Corless, a Canadian Cariboo prospector, is doing this right along, while digging out the basement of his house in the village of Skarret Creek, British Columbia. He is in the city to buy supplies for his mining operations and also explained workings of the Lees establishment.

The hearing of the hearing was taken up with extensive examinations for diagnosis of the case.

The case is continuing.

Mr. Corless is acting for plaintiff and defendant is acting for defendant.

GOOD SPURS

plus the best of both coarse place

Corless has some pretty good sand

and also of gold-bearing quartz,

which he has found in the basement of his house.

He got gold out of his cellar.

"We sank test-holes all over the place," he said. "We found an old creek bed where we thought the gold-bearing gravel ought to be. We took the gravel and washed it on Sharpen Creek itself. After some prospecting around, we found a few pieces of gold and here and there managed to get good showings and dug up a few pieces of gold. So we picked a place to put up a good cabin and while digging the basement, we found a few pieces of gold and paid dirt out of the gravel we dug up."

Corless is confident that placer mining in northern British Columbia will stage a good come-back, in view of the fact that the industry is down.

He has found gold in the area of the Cariboo Gold Belt, he said.

tonic or wash with warm water and almost immediately it will remove the skin toxic. Do not use very hot water. Apply the tissue cream or muscle cream around your eyes and leave it over night.

LOIS LEEDS.

Draiser from Hall

Dear Miss Leeds: I read in the paper a while ago about a lady who used hair dye and was taken to task by her husband for doing so. I am feeling. Do you know what she used and why they are allowed to sell such things? I have never seen anything like it in the paper. I am thinking of mentioning it in the paper dyes gray hair, and it is all at harm's way. I have never heard of any kind of hair dye used? Will say, dear doctor.

DRAISER, HEADREADER.

Answer:—I do not know what the lady used. Cases like this occur from time to time. The hair dye has not been developed by the manufacturer without ill effects, but this particular woman seems to have had a reaction to it. There are thousands upon thousands of events which happen to us daily.

The hair dye contains a colorant

which is good instead of drugs,

which are bad. It is good to

use a skin tonic, tissue cream, and

and I would say \$2.50 for facial

at least once a month, and I do a

good deal in a well-ventilated room,

and I exercise. I always take liver

pills at least once a week if I get

sluggish liver is the cause of my eye

pouches! I am almost sure of the

fact that this will help. I never

open the pores when cleansing the

the skin, or is cold cream suffi-

cient. I would say \$2.50 for a

surgical operation to remove the

gray skin? Is it dangerous or ex-

pensive?

Answer:—You seem to be using the right local care for your skin, so that is good. However, you could due to some internal irregularity. Have a thorough physical examination. You should not take liver pills unless they are prescribed by a doctor. Right diet will probably help the blemishes. Follow your physician's advice on what to do. A surgical operation would provide the quickest way to remove the gray skin. If you can't engage a reputable, skilled plastic surgeon, one whom your family physician recommends, the removal of the skin would not be dangerous. I cannot give you an idea of the cost, but it would be a good idea to be habitual to a person who is in the habit of spending as much as you do on cosmetics. You should follow up the operation, however, by removing the cause of the blemish possible. You should be sure to remember that facial treatments and exercises must be had regularly if they are to be effective. You should gently clean your skin with a cleansing cream, with a soft cloth and a gentle soap. Pat on a makeup cream or a tissue cream and give a gentle rub for five minutes. Wipe off the cream after ten minutes and pat with cotton saturated with a skin-

oil.

Who Are You?

CHICKEN SHORTCAKE

2 cups pastry flour

(or 1 1/2 cups of bread flour)

2 teaspoons Magic Baking Powder

1/2 cup sugar

4 tablespoons shortening

1 egg

Sift dry ingredients; add shorten-

ing and mix thoroughly with a

stirred egg; add beaten egg and suf-

ficient water to make a soft dough.

Roll or pat out with hands on floured

board. Cut out with large floured

muffin rings which have been

placed on greased baking pan. Bake

at 400° for 20 minutes. Split each

shortcake in half with a sharp knife

and fill with cream chicken

cheese & shortcake.

What Can Parents Do About the Wrong Man

By VIRGINIA LEE

WHAT'S a mother to do if her daughter is determined to marry a man she considers absolutely undesirable? Opposition usually makes the girl more stubborn.

True mothers and fathers are occasionally made mistakes a boy or the boys their daughters like best. When they try to point out the undesirable absence of some one man for her.

WORRIED MOTHER: Your daughter's prospects of happiness with him may be wished to remain secret, but you can't help them to head straight for woe and be powerless to stop it.

She Sighs So Unnecessarily!

Nearly Nervous Prostration

DO you know her... this poor woman who wakes up her husband every night?

How many young women are working "their nerve" because fears and apprehensions have taken hold of them?

If they would only try Lydia E. Pritchard's suggestion, it would strengthen by its tonic action... brings soothing, comforting relief.

Get her book, "How to Stop your Dragster Today. Try it in the new convenient tablet form."

**Lydia E. Pritchard's
VEGETABLE COMPOUND**

ferences in age might not matter so much. The disparity in education and social status between the two, however, that they would soon bore one another, but one can never tell about that.

I would trust to the girl's good sense to decide against the match, but if she is really set upon it, opposition will doubtless make her all the more determined to wed him.

All any parent can do, if the child goes ahead and marries against her wishes, is to let her know that she can't stand by if the marriage goes on the rocks.

A COUPLE OF PALS: You can enter the boys by telling them the different things you are interested in. You can play the radio or violin, cards or other games, or go to the movies or to picnics. Or to your boy's place or to his home and see what games they have that you can buy for small sums.

AN INEXPERIENCED GIRL is interested in the boy's talk, but the different things you are interested in, since she has no mother, and so is more strict than she needs to be. I think as far as the girl is concerned, she finds that you are trustworthy, she will let you go out and make your own mistakes, and she will let you go on the sly—and she is sure to find it out sooner or later—but she will not trust you in the future.

Be glad you have a bigger sister to look out for you, and do everything you can to be good and helpful to her.

INQUIRITIVE: I am so glad to have you tell me that men are interested in girls, and that you are especially glad you like my appearance. That is my picture that appears with your letter, and I am very pleased with it. Please send me another picture.

CONVENTION AT GROUARD

The annual meeting of the U.F.A. was held at the Grouard Hotel at the annual meeting held Wednesday. Other officers for the year were: Vice-president, Mrs. E. C. Lee; senior sister, Mrs. A. C. Larson; junior sister, Mrs. Jeanne Doreen; and Mrs. J. V. Vance, executive. Mrs. C. H. McKinney, Mrs. James Bennett and Mrs. Con-

Installation will take place in Deputy Grand McKittrick at the first meeting in this new year.

LA TO RAILWAY CONDUCTORS ELECT OFFICERS

Mrs. J. F. Pierce was elected president, Mr. W. J. McKittrick to the Order of Railway Conductors.

THE ANNUAL MEETING of the U.F.A. was held at the Grouard Hotel on Friday and was most enthusiastic.

AMATEUR RING BODY NAMES NEW PRESIDENT

Pro Hockey Moguls Discuss Plans At Calgary Today

TO COMPLETE
SCHEDULE FOR
WINTER PLAY

Size of League to be De-
termined at Important
Conclave

Once again the Gods of big business have it their way. The direction of Gene Carrigan, ring master of the International League, is the information that reaches you. It is a fact that the day after yesterday, and it has plenty of authenticity, as they say in the English classroom.

I hear tell that Detroit Red Wings, who, as you know, are attempting to build up their organization, have offered three good bunches of cash or three players for the big Sault Ste. Marie team. I wonder whether it will be accepted or rejected by Manager Clegg.

Gene, who went up to New York to see his old friend, a few days ago after playing sensational hockey with Springfield Indians of the International League, did not get, never got a real chance in that "grave yard" team for young players. After all, as a 22-year-old star, he was forced to watch the game from the bench for most of the time, with little chance to show his stuff. He was suspended for two games and last year was sold to London.

In the Ontario city he again showed his real ability, becoming one of the leading scorers of the Indians. But, even though Detroit's big league team is anxious to get him to strengthen its attack, he seems to be held back.

Fate of professional hockey in the West this year will be known today, when the mugs from four Western Canadian cities—Vancouver, Calgary, Saskatoon and Regina—gather in Calgary to discuss plans for the first season of the newly-organized professional loop on the prairies.

If they decide to go ahead with experiments, as is likely, to provide the fans with a good brand of hockey, I can see nothing but success for the circuit.

The time is ripe for a pro league in the West, right now, and if the mugs have the backing necessary, the first season may come along in the early part of its operation, and, as I say, go well. I am looking forward to the new-organized professional loop on the prairies.

Dan Keats made no statement regarding his future, but before rating rights for the galleries, but all "deeps" should be available upon his return to the city.

Local hockey teams, by the way, get their chance to get down to serious ice practice starting Saturday, Nov. 15, when opening up both local covered rinks for the season. The arena and Variety for some time past have been good surfaces in each.

Quebec will be welcome news to teams that have been forced to do their early work on outside rinks.

PARIS, Nov. 15.—Panama Al Brown, generally recognized as the greatest catcher in the world, has definitely joined the Spider Football League in the United States. He is the third round of the draft here last night. Brown, master of the "spider" pass, has been giving Spider football lesson in the first round, then finished the second round with the same with a right. A few seconds later a right to the head ended the bout.

Sheriff Took No
Chances On His
Gridders Losing

KNOXVILLE, Tenn., Nov. 15.—Alma Gifford, chief deputy of Sheriff W. E. Cook, has taken a long Tennessee football fan's position that the Volt would have lost to the Vols.

The morning of the game Gifford received a letter from C. E. Bell, Franklin County, Ga., sheriff's office.

"I asked that J. P. White be arrested,"

"We understand that this man is a football player on the team of the University of Tennessee,"

"This man is a graduate of the University of the Vols,"

"He is a member of the 'Brecky' team which won them 16-13."

"The coach of the 'Brecky' team wasn't the guy after all. The warden called for the arrest of a fellow named 'White' from the Vols,"

"Anyhow, 'Brecky's' initials are 'D. N.' not 'J. P.' and his name is 'White,' not 'Winn.'

They are one of few sports bodies that realize that an old professional may still love his game sufficiently to want to carry on.

THE REFEREE:

"I am a member of the maintenance of course. Cook is still a professional in the eyes of the F.A.A. and the referee is entitled to play without pay for as long as his wind and legs hold out."

Cook represents the finest type of professional.

He is the man in the water, watching the rank of sergeant-major, and won the military medal.

For the record, records are

not given to me, so it may interest them to know that Andy Duran was given a similar treatment by the maintenance professionals playing with amateur clubs like Williams and Markers (West), Hamlin, Bell, and Tupper Town, Bates (Crystal Palace), new members of the club, and Black (Queen's Park Rangers) who is with Park Royal.

It is interesting to note that several Canadian players are operating under similar licenses, among them Sancioni, of St. Andrews, Vancouver.

"But I didn't pay any particular attention to him because there were so many other players around at the same time," McDowell said.

"He was just window-shopping and I may say he was a good buy if it was a thought when he didn't come back for another look."

But Pat would be hard.

Golfers Ready For
Mid-Season Tourney

PINEHURST, N. C., Nov. 15.—A professional golfer training started a quest for \$2,000 in cash over 100 rounds of golf in the mid-season tourney in the mid-south open tournament today.

Four golfers teed off for 26 holes of bedroll play today. Tomorrow will see 36 holes more, each golfer on his own.

The international intercollegiate championship tournaments will be held at St. Moritz, Switzerland, from Nov. 5 to Nov. 8.

Community Puck
Meeting Tonight

A meeting of the sports committee of the Foundation of Community Leagues will be held in Room 931 Tegel Building at 8 p.m. tonight.

Formation of the midget, juvenile and senior teams will take place and the question of referees will be discussed.

BRITISH TEXTILES SEEKING MARKET

MANCHESTER, Eng., Nov. 15.—

The Manchester chamber of commerce in joint session with associations in making representations to the Canadian tariff board concerning the textile industry.

The chamber claimed believe reductions in the Canadian tariff already announced are unlikely to come into effect before January 1.

Guggenheim Heir Seeking New Job

CAFE WAGES TAKEN TO GET PAWNED SUIT

**Scion of Wealthy Family
Will Receive Million in
Six Years**

HOLLYWOOD, Calif., Nov. 18.—Albert J. Barron, new Guggenheim, Hollywood's aristocratic waiter, is one of a few young men who will be well off before his sixties and one-half years at the end of which time he inherits \$1,000,000. Barron, grandson of Bernard Barron, Englishman who became a millionaire several days ago, began his training in a "fashionable" Hollywood cafe to earn a living after the trustees of his London estate cut off an income of approximately \$10,000 a month because he had been wasting his money, quit his job at the time because of attendance publicity.

The cafe hired him again as a doorman, but he was so poor he had left that job, taken his wages to get a \$100 suit of clothes out of "six."

The 23-year-old heir was born the son of Mr. and Mrs. Albert Guggenheim, who were members of a prominent family. But dropped his last name when he came here. He married Mary, a girl from England, and the marriage prevented him from entering the naval academy at Annapolis, so he tried to make a living with little success.

Barron can now be a social success, since trainer, swimmer, instructor or club manager. He will not be a gigolo because he wants to keep in good grace of his wife.
